Wound Care 101 for Pharmacists

Wednesday, April 24, 2013

Dinner: 6:00 - 7:00 pm
Presentation: 7:00 - 9:00 pm

SPEAKER

Tanya Girouard-Stringer RN BN ET

LEARNING OBJECTIVES

After attending this presentation, participants will be able to:

1. Understand the basic pathophysiology of wounds/wound healing
2. Assess if a wound is suitable for self-management or if the patient should be referred to a physician
3. Understand the basic principles of wound cleansing and which products are inappropriate (i.e. hydrogen peroxide)
4. Familiar with how to choose an appropriate covering dressing (i.e. gauze, sterile pads etc.)
5. Be aware of the various categories and appropriate use of dressings (i.e. non-adherent, foam, gels etc.) –Both OTC and Rx
6. Be familiar with the appropriate use of topical wound care products (i.e. antiseptics, barrier creams, antibiotics etc.)
