Guide to Managing Your Professional Development Online

The following instructions provide step-by-step guidance for entering your professional development (PD) programs in the online PD Log. Before you start, please note:

- ✓ The process of recording a PD learning activity will take you through four web pages, followed by an option to save your entry. Once saved, you can go back to make changes to your entry, or delete it if you have made an error.
- ✓ All fields marked with a red asterisk* are **mandatory**.
- ✓ Please use the navigation buttons located at the bottom of each page to go back to the previous page and forward to the following page. Do not use the enter key or your browser's navigation buttons.
- ✓ The titles in this guide that are **bolded** correspond with related entry fields on the image of the PD webpage. This will help you match the written instruction in this guide to the related entry field on the page.
- ✓ This guide is divided into four sections, with instructions and images to guide you step-by-step.
